Geometrical Optimization of a Perimetric Exhaust

Miguel Fechado

Laboratory of Thermofluids, Combustion and Energy Systems
Center for Innovation, Technology and Policy Research IN+

IN+ GET TOGETHER

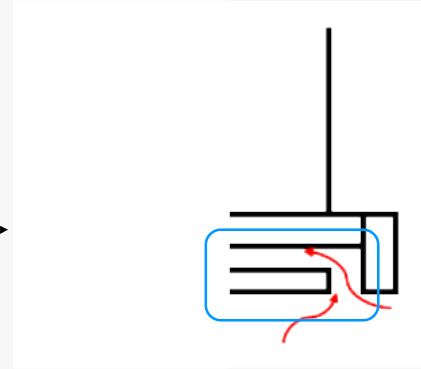

Supervisor(s): Prof. Edgar Caetano Fernandes
Luís Rego da Cunha Eça

20th September, 2019

Motivation and Context

Example of a perimeteric exhaust

$$K = \frac{\Delta p}{\frac{1}{2}\rho V^2}$$

Numerical Simulations
